Good electronic book and valuable one. It is one of the most incredible publication we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

What we routinely do every single day - good or bad, consciously or unconsciously - shapes our character and determines our future. The level of success - or failure - we have reached is rooted in our habits. Knowingly or unknowingly, we acquire habits throughout our lifetime - some of them good, while some are bad. And because we always fall short of our goals, we always find ourselves at the crossroads of introducing changes in our lives. Unfortunately, there are only two avenues of change we can pursue - hold on to our dreams but change our habits, or downgrade our dreams to suit our current lousy lifestyle. This book is about introducing changes to your life by building good habits - what exactly you need to succeed in life. It is about propelling your life to the next level of success - but not through simple motivation...
