ARCHITECTURAL GUIDE INDONESIA

DOM Publishers Okt 2015, 2015. Taschenbuch. Condition: Neu. Neuware - How does the world's fifth largest population express itself in terms of architecture Is there any common language when it comes to planning and construction For the past seven decades, both Indonesian and international architects have developed new ideas in order to fulfill the demands of the country's 250 million inhabitants, in line with economic progress. Imelda Akmal's 'Architectural Guide Indonesia' presents over one hundred must-visit buildings which date from the post-independence era, starting in 1945, to the present day. This book explores buildings that still embrace traditional Indonesian architectural heritage as well as those whose design is based on practical considerations, thus offering a valuable insight into the works of emerging and established architects. In total the guide features carefully selected buildings with all salient information as to their dates of construction, architects and locality by way of QR codes. 388 pp. Englisch.
