Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The Joyful Wisdom - La Gaya Scienza - The Gay Science by Friedrich Nietzsche Translated by Thomas Common With Poetry Rendered by Paul V. Cohn and Maude D. Petre The Gay Science or The Joyful Wisdom is a book by Friedrich Nietzsche, first published in 1882 and followed by a second edition, which was published after the completion of Thus Spoke Zarathustra and Beyond Good and Evil, in 1887. This substantial expansion includes a fifth book and an appendix of songs. It was noted by Nietzsche to be the most personal of all [his] books, and contains the greatest number of poems in any of his published works. The book's title uses a phrase that was well known at the time. It was derived from a Provençal expression for the technical skill required for poetry-writing that had already been used by Ralph Waldo Emerson and E. S. Dallas and, in inverted form, by Thomas Carlyle in the *dismal science*. The book's title was first translated into English as *The Joyful Wisdom*, but *The Gay Science* has become the common translation since Walter Kaufmann's version in the 1960s. Kaufmann cites *The Shorter Oxford English Dictionary* (1955) that lists *The gay science* (Provençal *gai saber*): the art of poetry.
